

Botanical Gift Tags

Print at home.
Tie with care.

How it works

The PDF includes two versions of the tag sheet. Use whichever matches what you have on hand.

Option A — Avery® 22802. Print directly on Avery 22802 sheets (2 × 3.5" pre-cut tags, strings included, 8 per sheet, Letter). No cutting, no hole-punching. The cleanest path.

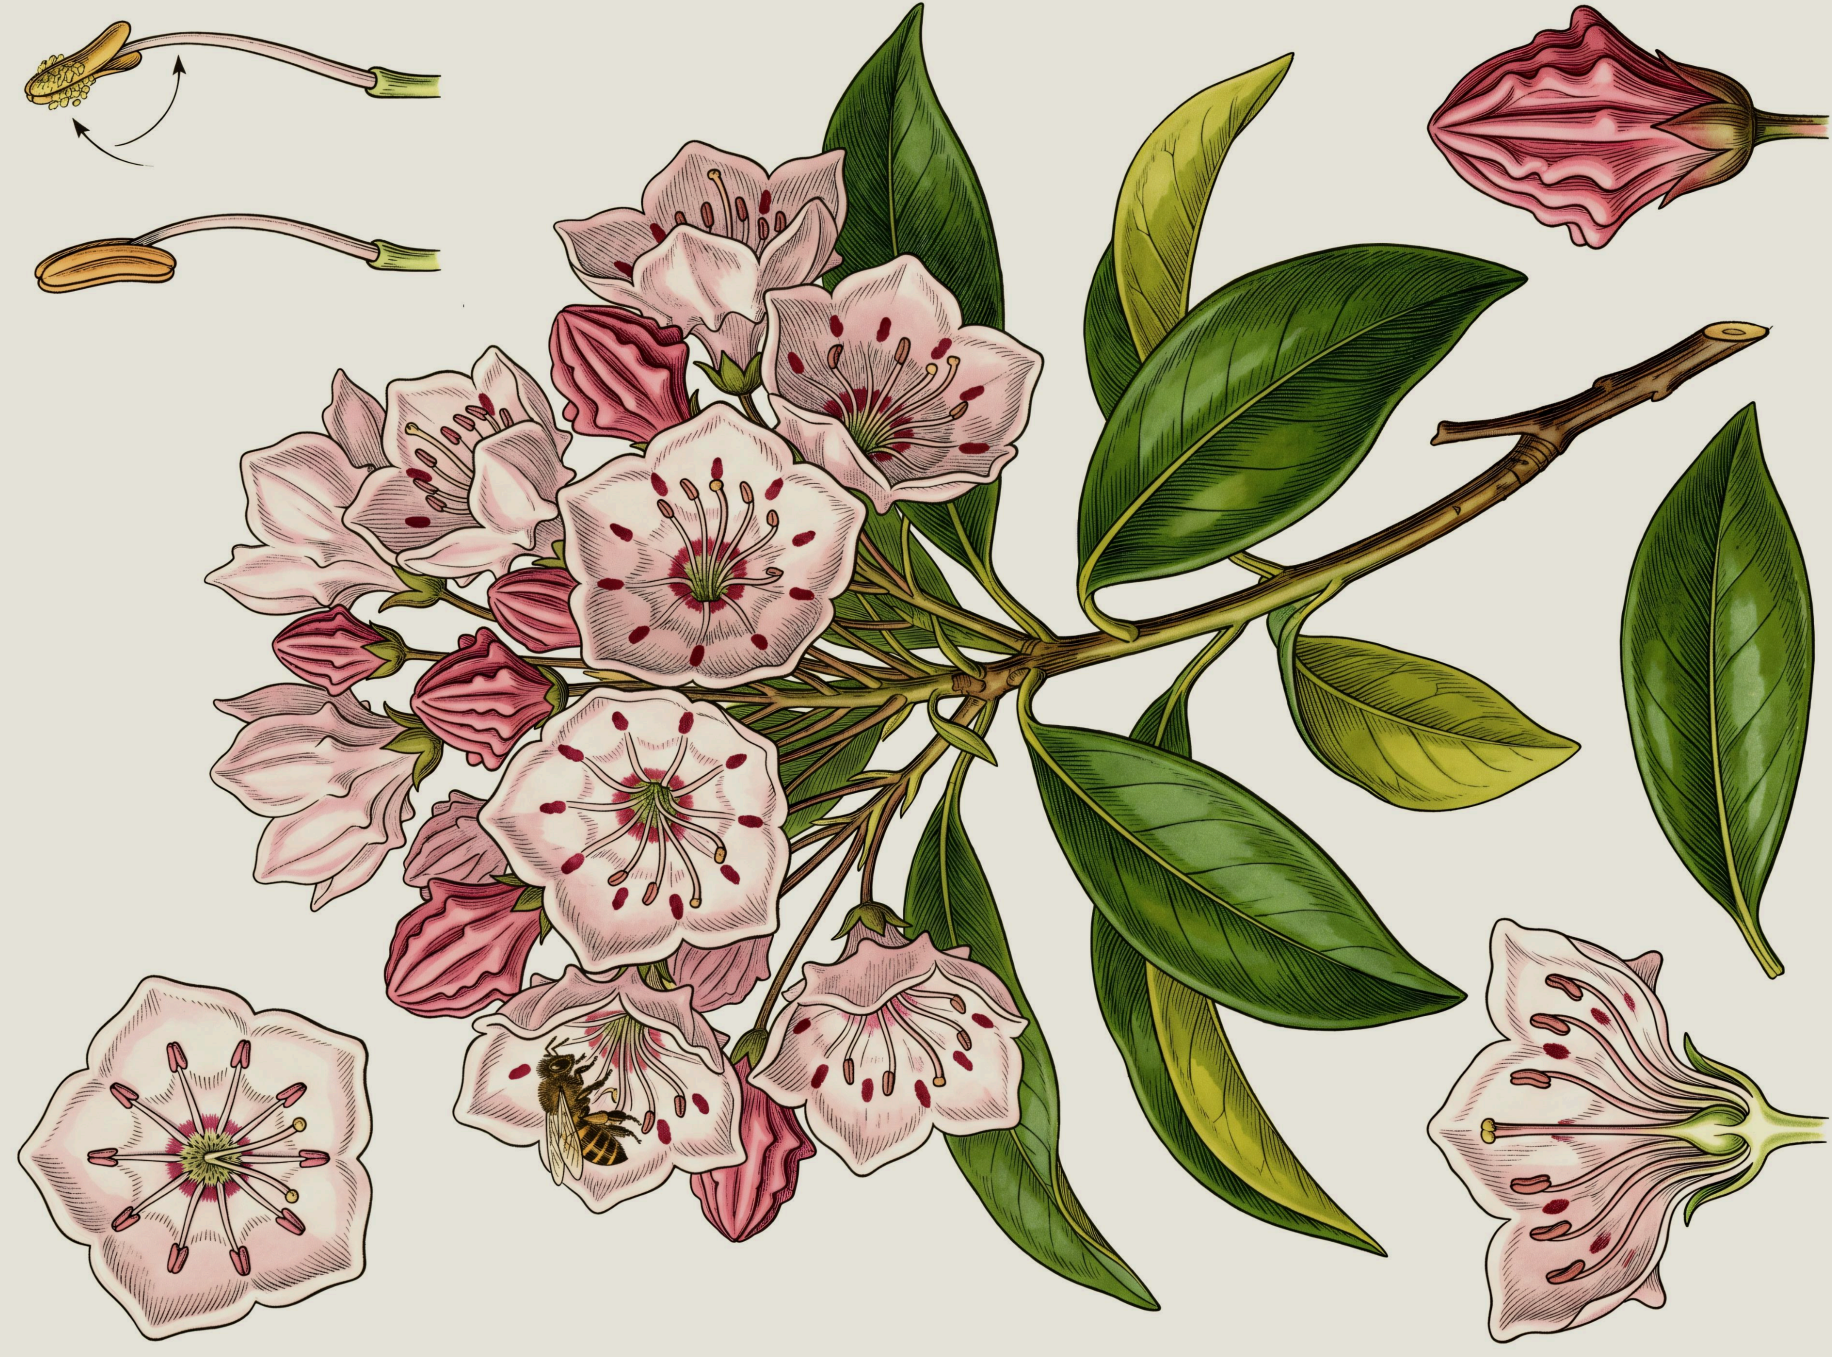

Option B — plain cardstock. Print on any cardstock (200 g/m² or heavier), Letter size. Cut along the dotted lines — a craft knife is cleaner than scissors but neither is wrong. Punch a hole at the top, thread baker's twine or thin ribbon.

Tie to a present. The match between tag and recipient is the gift.

Frankia albatamaha

Functions only under
careful human accounting.

Kalmia latifolia

Beautiful. Decorated.
Quietly armed.

Sequoiadendron giganteum

Three thousand years.
Outlasts everyone.

Pueraria montana

Hard to remove. Like certain
family members.

With Care.

Many Happy Returns.

For You.

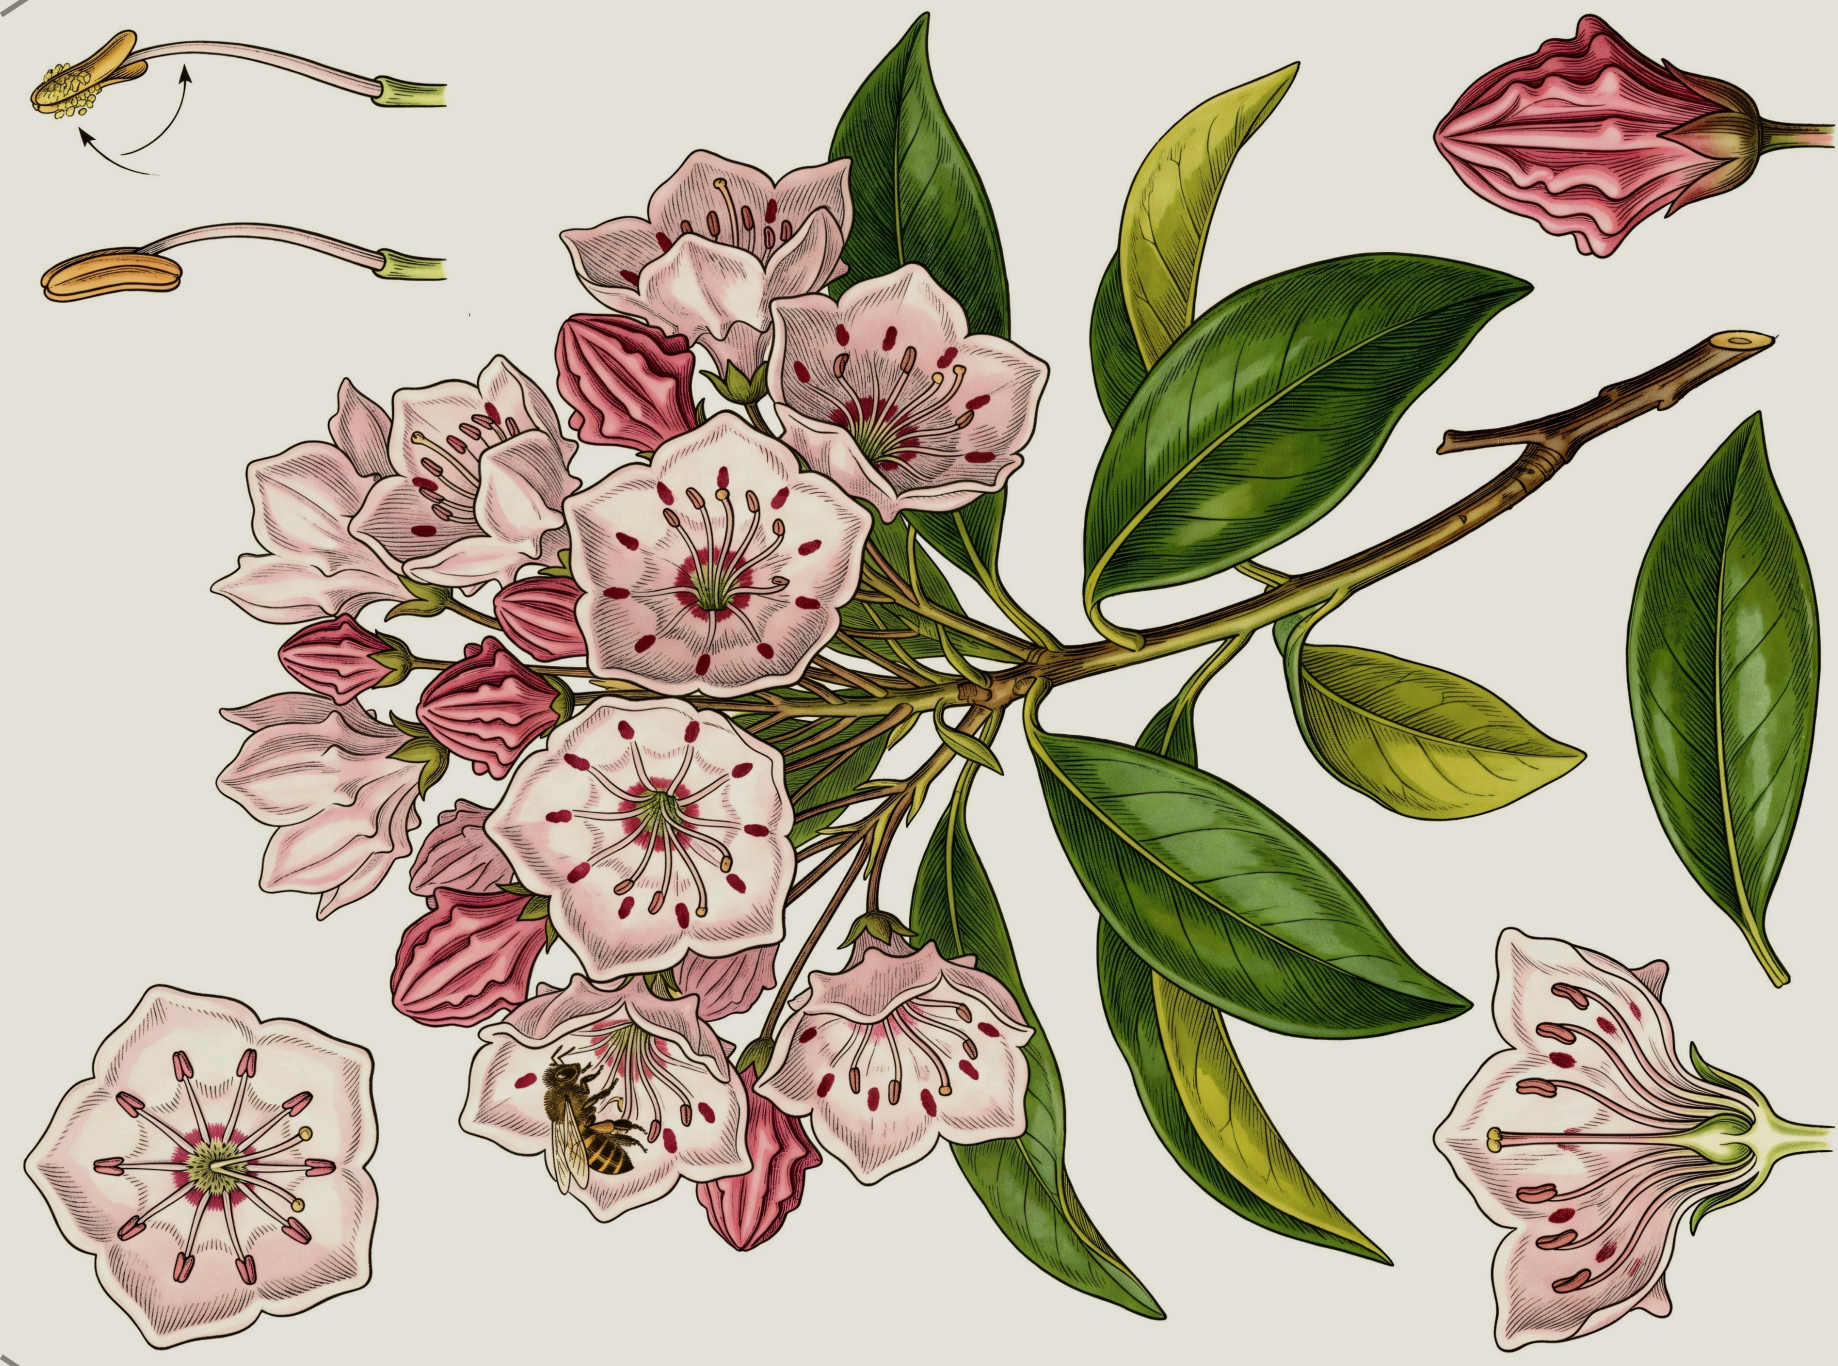

Thank You.

Frankia alatanaha

Functions only under
careful human accounting.

Kalmia latifolia

Beautiful. Decorated.
Quietly armed.

Sequoiadendron giganteum

Three thousand years.
Outlasts everyone.

Pueraria montana

Hard to remove. Like certain
family members.

With Care.

For You.

Thank You.

Franklinia alatamaha

Franklin Tree

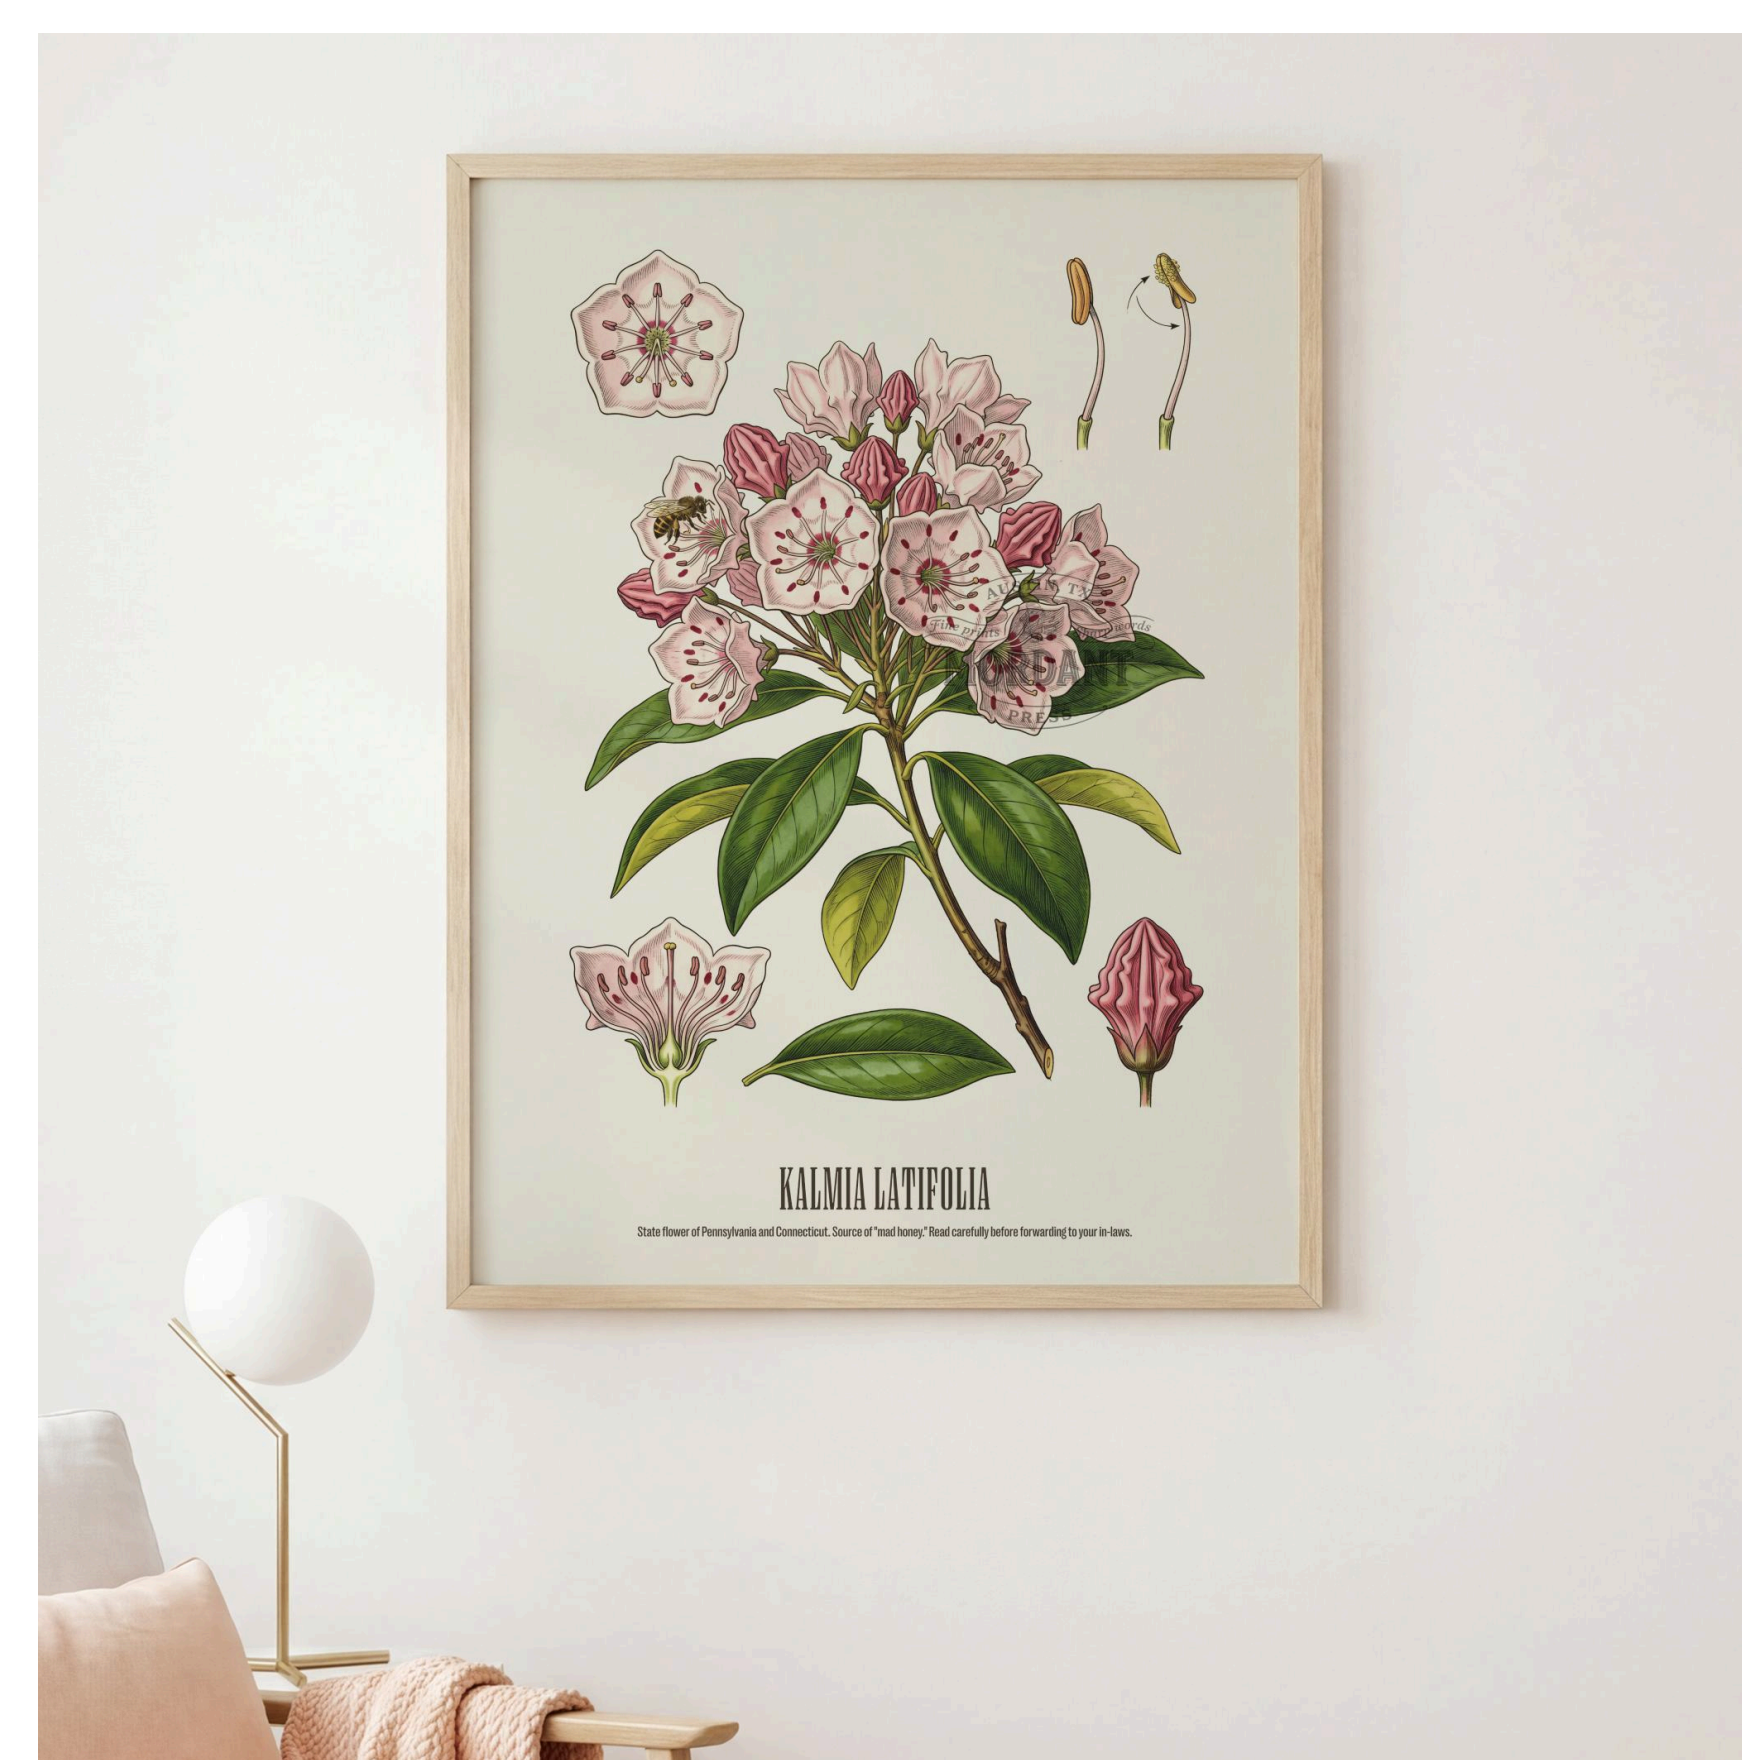

Discovered 1765. Extinct in the wild by 1803. Survives only in cultivation, like most things named after Franklin.

Kalmia latifolia

Mountain Laurel

State flower of Pennsylvania and Connecticut. Source of "mad honey."
Read carefully before forwarding to your in-laws.

Zea mays

Maize

Domesticated by indigenous Americans over 9,000 years.
Now 92% genetically modified. Progress.
